1955-1956 CATALOG

Fall and Spring

— WASHINGTON —

WHOLESALE ONLY

— ORDER EARLY —

Dear Customer:

We highly appreciate the hundreds of satisfied customers who have been buying from us since we started our business in 1947.

It would have been impossible to build our business without your goodwill.

This year we list an increased assortment of Bulbs, Plants and Perennials. The Bulbs are supplied from our own fields in HOLLAND, and thru contract growers in our Mount Vernon area. The Plants come from the very best growers in the North West and California. We buy only from the best growers assuring you the quality you deserve in order to promote your customers' goodwill.

If you are not already a customer, why not send us a trial order NOW.

Sincerely yours,
HOLLAND BULB GROWERS INC.

John Kapteyn

TERMS: of Sale:

Credit to established accounts.

New accounts cash with order, unless order is accompanied with 3 satisfactory trade references. Allow 3-4 weeks so we may check these references....

All accounts NET 30 DAYS, NO DISCOUNT.

This price list cancels all previous quotations.

Prices listed in this catalog subject to change without notice.

COLORED LABELS: Of most varieties available upon request for counter display.
Also window streamers and other advertising material.

If interested in being kept informed about promotional material and pictures, ask that your name be placed on the mailing list of: ASSOCIATED BULB GROWERS OF HOLLAND, 29 Broadway, New York, N. Y.

The dates mentioned such as "SEPTEMBER" mean the earliest date bulbs or plants are ready to ship.

PACKAGED BULB LIST SENT UPON REQUEST

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the problem and the objectives of the research.

2. The second part of the report is a detailed description of the methods used in the study. It includes a discussion of the experimental design, the data collection procedures, and the statistical analysis techniques.

3. The third part of the report is a presentation of the results of the study. It includes a discussion of the findings, a comparison of the results with previous research, and a conclusion about the significance of the study.

4. The fourth part of the report is a discussion of the implications of the study. It includes a discussion of the limitations of the study, the strengths of the findings, and the potential for future research.

Holland Grown, prices on request..... (We stock California grown only, because
(blooming qualities are far superior....

The first part of the document discusses the importance of maintaining accurate records of all transactions. It is essential to ensure that every entry is properly documented and verified. This process helps in identifying any discrepancies or errors early on, preventing them from escalating into larger issues. Regular audits and reconciliations are key to maintaining the integrity of the financial data.

Furthermore, the document emphasizes the need for transparency and accountability. All stakeholders should have access to the relevant information, and any changes or updates should be communicated promptly. This ensures that everyone is on the same page and can make informed decisions based on the most current data.

In addition, the document outlines the importance of security and data protection. Sensitive information must be stored securely and accessed only by authorized personnel. Implementing robust security measures, such as encryption and access controls, is crucial to safeguarding the organization's assets and maintaining the trust of its customers and partners.

The second part of the document provides a detailed overview of the current financial performance. It includes a breakdown of revenues, expenses, and profits for the reporting period. Key metrics are highlighted, and trends are analyzed to provide a comprehensive picture of the organization's financial health. This analysis is used to inform strategic decisions and to identify areas for improvement.

Finally, the document concludes with a summary of the findings and recommendations. It reiterates the importance of ongoing monitoring and reporting, and it provides a clear path forward for the organization. By following these guidelines, the organization can ensure that it remains financially sound and capable of achieving its long-term goals.

SCILLASEPTEMBER

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

2. Once the problem is identified, the next step is to define the objectives and goals of the project. This helps to clarify what needs to be achieved and provides a clear direction for the team.

3. The third step is to develop a plan or strategy to address the problem. This involves breaking down the problem into smaller, manageable tasks and determining the resources needed to complete each task.

4. The fourth step is to implement the plan. This involves putting the strategy into action and monitoring progress regularly to ensure that the project is on track.

5. Finally, the fifth step is to evaluate the results of the project. This involves assessing the outcomes against the objectives and goals and identifying any areas for improvement or further action.
